

1. Information of the substance/preparation and of the company	
1.1 Commercial product name	Cerebral Array I, Tri-Level Control
Cat. No.	KG5008
1.2. Company	<b>BGT BioGenTechnologies GmbH</b> Von-Langen-Weg 10 D-48565 Steinfurt Tel.: 02551/4090 Fax.: 02551/1298
1.3. In Emergencies	Tel.: 02551/4090

2. Composition / Hazardous Ingredients	
	Contains no hazardous substances in reportable quantities.
Classification:	No hazardous chemicals as classified by CHIP 3.

3. Hazards identification	
Warnings:	<p>For <i>in vitro</i> diagnostic use only. Do not pipette by mouth. Handle laboratory reagents in accordance with Good Laboratory Practice.</p> <p>May cause irritation to skin and eyes, may be irritating to mucous membranes and upper respiratory tract. Avoid contact with skin, inhalation and ingestion.</p> <p>Biohazard – The controls in this kit contain antigens of human origin. Each donor used in the preparation of the materials was tested by an FDA approved method for the presence of HIV and HCV antibodies, and the hepatitis B antigen, and found to be non-reactive. However, since no test can offer complete assurance that such infectious agents are absent, reagents should be handled with the same care as a clinical specimen.</p>
Risk phrases:	None
Safety phrases:	None

4. First aid measures	
Emergency First Aid:	<p>Call an internal First Aider where available or else contact a physician immediately.</p> <p>Direction for First Aider or Physician:</p>
Inhalation:	If inhaled, remove to fresh air. If breathing becomes difficult, call a physician.
Ingestion:	If swallowed wash out mouth with water provided person is conscious, call a physician.
Skin Contact:	In case of skin contact immediately wash skin with soap and copious quantities of water.
Eye Contact:	Flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eyelids with fingers. Call a physician.

<b>Commercial product name:</b>	Cerebral Array I, Tri-Level Control
---------------------------------	-------------------------------------

<b>5. Fire-fighting measures</b>	
Flash point:	Not known
Flammable limits:	Not known
Extinguishing media:	Can use water, carbon dioxide, dry chemical or foam
Special Fire Fighting Procedures:	None
Unusual Fire and Explosion Hazards:	Not known
Thermal decomposition:	Not known

<b>6. Accidental release measures</b>	
After spillage:	<p><b>Precautions</b></p> <p>Treat material as you would human body fluids. Disposal should therefore include autoclaving at 121°C for 20 min. prior to appropriate disposal with regard to local regulations.</p> <p>Alternatively, decontamination using a 0.1% solution of sodium hypochlorite is acceptable. Perform this type of decontamination in a fume hood.</p> <p>Appropriate Personal Protective Equipment should be worn, e.g. laboratory coat, gloves, safety glasses and mask.</p> <p>Ventilate area and wash spill site after material pick up is complete.</p>
Absorbent material:	No restriction

<b>7. Handling and storage</b>	
7.1 Handling:	<p>The normal precautions for handling chemicals must be observed.</p> <p>Avoid inhalation.</p> <p>Avoid contact with skin and do not swallow.</p>
7.2 Storage	Store at temperatures and conditions as indicated on the product label.
Do not store together:	No restrictions.

<b>8. Exposure controls/personal protection</b>	
MEL/OES	Not known
Respiratory protection:	None
Eye protection:	Protective glasses
Hand protection:	Protective gloves (rubber or plastic)
Skin protection:	Laboratory coat

Revision: A  
Date: 6 April 2009

<b>Commercial product name:</b>	Cerebral Array I, Tri-Level Control
---------------------------------	-------------------------------------

<b>9. Physical and chemical properties</b>	
Physical state:	Lyophilised
Colour:	Pale yellow liquid when reconstituted
Odour:	Odourless
pH value:	Not determined
Boiling point	Not determined
Melting point:	Not determined
Oxidising properties:	Not determined
Ignition temperature	Not determined
Explosion limits:	Not determined
Density:	Not determined
Solubility in water:	Not determined

<b>10. Stability and reactivity</b>	
Stability:	Stable
Conditions to avoid:	Not determined
Substances to avoid:	Not determined
Hazardous decomposition products:	None determined

<b>11. Toxicological information:</b>	
LD50 oral	Not known
LD50 intraperitoneal	Not known
LD50 skin	Not known
LC50 inhalation	Not known
toxicologic information:	Not known

<b>12. Ecological information</b>	
Water hazard class:	Data not yet available

<b>Commercial product name:</b>	Cerebral Array I, Tri-Level Control
---------------------------------	-------------------------------------

<b>13. Disposal</b>	<p><b>Precautions</b></p> <p>Treat material as you would human body fluids. Disposal should, therefore include autoclaving at 121°C for 20 min prior to appropriate disposal with regard to local regulations.</p> <p>Alternatively, decontamination using a 0.1% solution of sodium hypochlorite is acceptable. Perform this type of decontamination in a fume hood.</p>
---------------------	---

<b>14. Transport Information</b>			
GGVE/GGVS:	Data not yet available	RID/ADR	Data not yet available
ICAO/IATA-DGR:	Data not yet available	UN-Nr.:	Data not yet available
IMDG-CODE:	Data not yet available	MFAG	Data not yet available
		EMS:	Data not yet available

<b>15. Regulatory information</b>	
	This substance contains no hazardous chemicals in reportable quantities according to CHIP 3 regulations.
Hazard symbol:	None.
Risk phrases:	None
Safety phrases:	None
Precautions:	The controls contain antigens of human origin; exercise due care

<b>16. Other information</b>	
	The information herein is believed to be correct as of the date hereof but is provided without warranty of any kind. The recipient of our products is responsible for observing any National laws and guidelines applicable.
